WEB DESIGN

January-March

hello

webDESIGN • dinnie.com

design

We believe each project should have its own unique look and feel.

We build each website entirely from the ground up and do not use ready-made templates.

development

Successful development goes hand-in-hand with a great User Experience.

All source code is tested thoroughly to ensure there aren't any unpleasant surprises.

5 days

It normally takes us 5 working days to design and develop your site.

We'll keep you in the loop each step of the way so you're completely involved and well aware of our creative direction.

beautiful front-ends conceal the latest in advanced technology

standard

state-of-the-art hosting solutions...

professional photography

we price this service per project
after a detailed discussion.

the quality of your photos could easily make or
break your website

we offer professional photography that makes all the
difference to the look of your site

because we're the same ones putting your site together, we know
exactly which angles to shoot and the type of pictures it
will take to bring your website to life.

life-long maintenance

our commitment doesn't
end with publishing
your site

we guarantee updates within 24 hours
of receiving them from you

need them faster?
call us, we'll make it happen
